

Safe together

NÜRNBERG MESSE

This is a summary of the main protection measures that will be adopted at our events for the safety of everyone.

We are close to the time to meet again and for that to happen, we have developed protocols and actions with Hospital Israelita Albert Einstein to promote the safety of everyone at our events, which will be applied in accordance with current state and municipal decrees.

Vaccination passport:

According to the 'DECRETO 60.989 DE 06 DE JANEIRO DE 2022, DA PREFEITURA DE SÃO PAULO', the vaccination passport with two doses against COVID-19 is mandatory in shows, trade-fairs and congresses. This passport will be required at the entrance of the event.

We will accept as vaccination passport, the government applications: federal, state and/or municipal; in addition to the physical passport.

Masks use:

- Considering the current moment and because it is a closed environment with a large number of people, we recommend wearing masks throughout your entire stay at the event.

Disinfection and cleaning:

- Bathrooms will have intense cleaning dynamics.
- Alcohol gel sanitizer totems will be available and spread all around the event

Distancing:

- The event plan and access dynamics were designed to allow safe traffic between runners.
- If in the future it is necessary to control the public for periods, we will communicate accordingly.

Pavilion and booth infrastructure:

The structures of the event and the stands will be built with a special eye to avoid creating agglomerations, keeping environments open and easy to sanitize.

- São Paulo Expo has state-of-the-art equipment that will allow the exchange of fresh air several times a day. In addition, whenever possible the pavilion doors will be open.

These measures follow the guidelines of the State Government, Municipal Government and Health Institutions and will be updated as they have been adjusted. Despite this, our main concern is, as far as possible, to provide an environment that preserves the safety of all participants.

All detailed information about the **SAFE TOGETHER** will be available on the NürnbergMesse Brasil website and on all our events.

**Safety is a priority and depends on all of us.
Shall we take care of ourselves together?**

SAFE TOGETHER
